Exploration of apple's iPhone Impact In India

Says

I'm actively looking for a new job opportunity

I need a job that matches my skills and career goals

I've been applying to several positions online

I want a reliable and affordable smart phone apple's iPhone

Thinks

I hope I can find a job that offers career growth and good salary

I need to prepare well for interview and improve my resume

The job market is competitive and it's tough to standout

If I buy a iphone,it will enhance my social status, but I also need to consider the cost and whether it meets my needs

Does

Submits for application and tailors resumes for each application

Researches companies and job market trends Attends job fairs, networking events, and interviews

Researches different smartphone options, compares prices and features, and may choose to buy an iPhone or different brand

Feels

Optimistic about finding the new job opportunity

Determined to improve skills and succeed in the job market

Anxious about the job search process and potential rejections

Excited about a prospect of owning an iPhone, but also anxious about the cost and whether it's the right choice for the needs
